B2B Automation for Suppliers

December 9, 2008

degnanCO. | WEB SERVICES

A stylized illustration of a brick building with two windows and two semi-trucks parked in front. The scene is rendered in a blue and white color palette with yellow highlights. The background features abstract shapes and lines, suggesting a modern or industrial setting.

cXML / OCI Programming and Implementation

Supplier Enablement Training

Co-location/Managed B2B Hosting

Experience with most B2B Methodologies

- Ariba PunchOut
- Open Catalog Interface (OCI)
- SciQuest

cXML / OCI Programming and Implementation

Degnan Co. provides managed solutions for suppliers who wish to accelerate through the challenges of becoming a B2B portal-enabled supplier.

We specialize in adapting legacy eCommerce systems, and we support multiple programming environments.

Our team of programmers can rapidly deploy both small and enterprise-level services.

cXML / OCI Programming and Implementation

- Legacy eCommerce evaluation
- cXML / OCI eCommerce "Pre-Checklist"
- Degnan Co customizable modules for any business type
- Inventory integration / products and pricing
- Custom shopping cart order forms
- Professional web design and layout

cXML / OCI Programming and Implementation

- cXML / OCI purchase order processing
- cXML invoice request / invoice processing tools
- Integrated order processing modules, order history, etc.
- Quote management / Pre-seed shopping carts
- Data extract (EDI, custom reports, other XML)
- Account management

Working with Procurement to Coordinate Supplier Rollout

- Degnan, Co can serve as a single point of contact for procurement and suppliers
- Standardized shopping platform to reduce procurement staff user training cost
- Experienced with single buyer/multiple supplier rollout (State of Virginia, UCSD)
- Managing the transition from legacy eCommerce systems.
- User Training

On-site Customized Training

Degnan Co. provides on-site training for all stages of the supplier integration process including:

- Requirements planning
- cXML / OCI “how-to” for companies that wish to develop and support their own in-house solution
- Business requirements
- Testing tools
- User training and roll-out

Co-location / Managed B2B Hosting

- Enterprise managed solutions / Co-located server services
- Reasonably-priced punchout web site hosting
- A private, full-service ISP (email, DNS, customer service)
- Secure facility
- 24/7 network monitoring
- 99+% uptime / network redundancy
